SALES + REPAIR + SERVICE + RENTAL

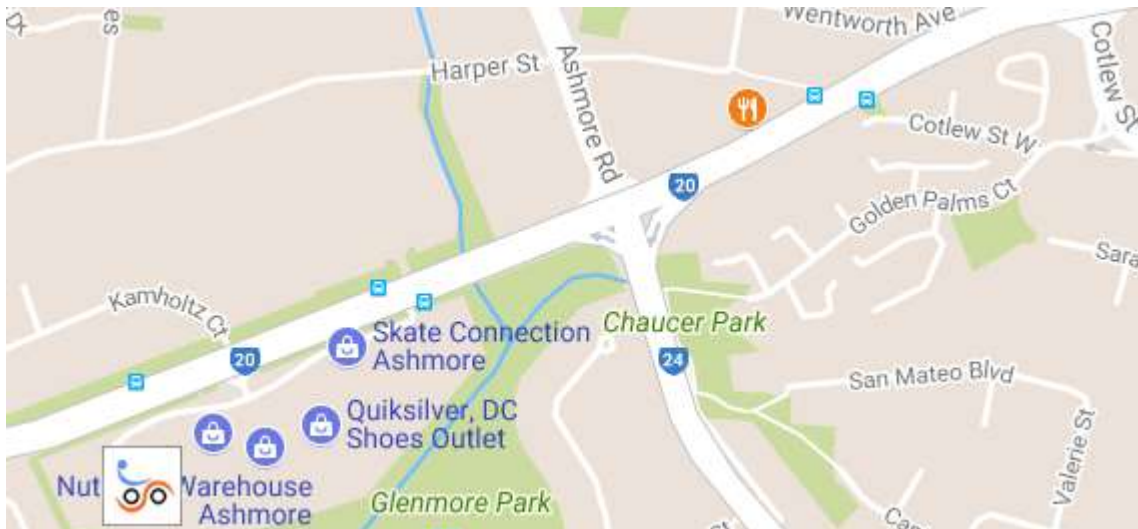

Scooterland Mobility

Scooterland Mobility was incorporated circa 2001 and is an individually owned business specialising in the supply of mobility equipment such as Mobility Scooter, Wheelchairs, Daily Living Aids, and offers sales, service and repair, and hire to Logan through to the Gold Coast and Hinterland.

At Scooterland, we work closely with our clients to establish their needs and offer a solution that suits any budgets and purposes.

Who do we work with..

- People who want the freedom of Independent living
- Support organisations including support service agencies, aged care facilities
- Shopping centres, theme parks and the tourist industry, to provide mobility solution to visitors, shoppers and holiday makers
- Government programs such as N.D.I.S, M.A.S.S., CAEATl and DVA that provide subsidised equipment and support services

Looking for something else that is not on our catalogue, email us at sales@scooterland.net.au, we can source it for you.

R A C Q - Royal Automobile Club of Queensland Limited

Servicing

Like most things mechanical a scooter requires regular service to maintain any warranty which can vary depending on the manufacturer and model, but in general the warranty period will vary from 6 months for batteries to 36 months for framework; this is why we recommend service be carried out at regular annual or bi annually intervals for electric mobility scooters, wheelchairs (electric and manual) and power chairs.

What is generally included in a service?

- Carry out a general visual inspection of components
- Remove a brush and flush the motor housing assembly of carbon deposit
- Check brushes for wear
- Remove the wheels and grease the axles to reduce the risk of a wheel seizing to the axle
- Check wiring connectors to look for corrosion (intermittent faults due to lack of contact)
- Check wiring, wiring insulation, for wear or damage (potential malfunction)
- Check the charger cord, for wear or damage
- Check and adjust tyre pressures
- Check front steering for tightness

Repair work includes:

- Battery discharge tests
- Charger operational tests
- Battery replacement
- Charger replacement
- Tyre or tube replacement
- Parts replacement or frame repairs
- Electronic repairs such as throttle potentiometers / speed potentiometers
- Motor or Brake assembly replacement
- Troubleshooting fault conditions
- Troubleshooting wiring or controller issues
- Controller or Joystick programming

SPARES

- Batteries
- Battery chargers
- Tyres and spare parts for all our models of scooters and for other brands
- Electronic components (some)
