An Innovation for Mobility Solution

Mobility Made Easy (Foldable & Portable)

Mobility TEK is an mobility innovation to provide for a comfortable ride in indoor and outdoor. It is ideal to use in shopping center's, retirement village and at home. It can fit into the car boots easily.

Better Batteries Management

Lightweight Lithium batteries give both performance and portability. It comes with two batteries on either sides of the Mobility-TEK. They are cleverly designed and incorporated into the structure. Individual battery packs comes with a battery indicator. It can operate even with only one battery.

- Batteries are cleverly concealed in the structure
- Indicator for individual battery
- Can operate with only one battery

Strong Durable Lightweight

Strong Aerospace Aluminum Alloy Frame. Made in strong Aluminum alloy to maximize the durability and minimize the weight of the chair.

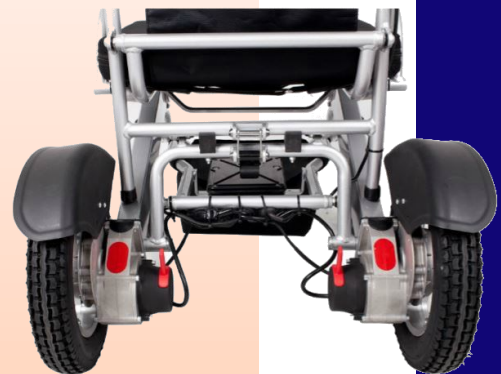

12" Rear Solid Wheels

- Front and Rear wheels are solid.
- Can be used on various surfaces
- Big rear wheel for stability and comfort

Brushless System

Brushless D C Motor gives higher efficiency and a lower susceptibility to mechanical wear. Power is not wasted due to poor brush to metal contact and arcing.

Other Features

- Seat is secured with strong metal clip
- Small basket under the seat
- Foldable arm rests and foot rest

Mobility Solutions

Specification - Mobility TEK - TEK88M	
Folded Size	580*325*780 mm (L*W*H)
Unfold Size	960*580*930 mm (L*W*H)
Max weight Capacity	120 kg
Type	Brushless DC Motor
Motor Power Rating	2*Motors Each @ 250 Watts
Braking System	Intelligent Electromagnetic Brake
Batteries	Lithium Batteries 12Ah (6Ah*2pcs)
Weight without Batteries	23.5 kg
Weight with Batteries	26.5kg
Maximum Gradeability	10°
Travel Range	18 - 22km (fully charged)
Max Speed	6 km/h (3.75 mph)
Turning radius	835 mm
Highest Climb	40mm (1.57")
