

## Breezy BasiX<sup>2</sup> Wheelchair

The Breezy BasiX2 is constructed from a lightweight aluminium folding frame. This makes the chair easy to move and transport, as well as making it easy to self-propel by the user.

The chair looks sleek, modern and incorporates a silver powder coat finish. Breathable nylon upholstery makes the chair comfortable, while at the same time helping prevent the user from getting too hot and sweaty while sitting in the chair.

Adjustable handles, seat depth, height, backrest tension, and footplate angles make the chair fit the needs of almost any client. Heel straps prevent the client's feet slipping out of the footplates. The wheels are quickly removed for easy transportation.

### Benefits

The Breezy BasiX<sup>2</sup> is a lightweight folding wheelchair that features amazing adjustability and rigidity, combined with a modern and clean look.

Classic chair design provides a solid, easy to handle wheelchair, that is suitable for both first time and experienced users alike. Adjustable design means the chair can be configured for maximum comfort of the user. Lightweight construction makes the chair easy to handle as well as to propel. Removable components make the chair simple to take apart for storage or transportation in a small car.
